Google Chrome Extension

Our Google Chrome Extension allows you to automatically follow any number of followers and in some cases, automatically DM your new followers with a message that will help you to build your social following. The Google Chrome extension currently works with Instagram, TikTok, Vinted and Depop. You can [click here](#) to see the follower tool in action.

Our follower tool has been designed to automate the time consuming task of following, unfollowing and messaging new followers. You can engage new followers and build your social network by using our Google Chrome extension. You can see how it works by [clicking here](#).

Step 1 - Install Our Google Chrome Extension Tool

You can install our Google Chrome extension by [clicking here](#). As you click the link, you'll be taken to the Google Web Store where you'll be able to install the Google Chrome Extension. You can see how it works by [clicking here](#).

The image shows a screenshot of the sixdeep.com website. The website has a red header with the 'sixdeep' logo and navigation links: HOME, BECOME AN INFLUENCER, MY ACCOUNT, and ADVERTISE WITH US. Below the header, there are categories like BOYS CLOTHING, GIRLS CLOTHING, JD SPORTS, MAT, MENS CLOTHING, NEW BALANCE, NIKE, SIXDEEP, and SOCK SHOP. The main content area features a large image of four people using their smartphones, with various social media icons overlaid. Below this image is the text 'The Home of Influencer M...'. Further down, there is a section titled 'The Power of the Bio Link' with a paragraph explaining its utility. On the right side of the screenshot, a Chrome extension interface is visible, titled 'Follow/Unfollow'. It includes a 'Plans' menu, 'Setting', and 'Support' options. The extension has a toggle for 'Account to Scan' and radio buttons for 'Instagram', 'Tiktok', 'Depop', and 'Virted'. Below this, there is a text input field for the account name and a 'Set Follow/Unfo...' button. A table shows the number of users to follow/unfollow and the resulting changes in follows, unfollows, and gained users. At the bottom right, there is a small image of a smartphone displaying an Instagram profile for 'Sixdeep.com' with 9 posts, 105 followers, and 25 following.

	Follows	Unfollows	Gained
Instagram	4	72	-68
Tiktok	26	0	26
Depop	0	0	0
Virted	4	6	-2

Step 2 (optional) - Create your Bio Link

Register and display a [Sixdeep.com/YourName](https://sixdeep.com/YourName) bio link within your social media accounts and promote all of your social media accounts with just one link. Displaying a link in this way allows you to promote all of your social links in one place in addition to presenting you with an opportunity to monetise your following by adding links to products that your followers are likely to be interested in. You can register your free bio link by [clicking here](#).

Step 3 (optional) - Automatically send new followers your new Bio Link as a DM.

The screenshot shows the 'Follow/Unfollow' tab of the plugin. It features a search bar for 'Account to Scan' with a toggle switch. Below this, there are checkboxes for social networks: Instagram (checked), Tiktok, Depop, and Vinted. A text box explains that the user must be logged into the selected social network. There is a 'Number of users to follow/unfollow' input field set to 1, and 'Follow' and 'Unfollow' buttons. At the bottom, a table displays follower statistics for each platform.

	Follows	Unfollows	Gained
Instagram	447	0	447
TikTok	0	0	0
Depop	0	0	0
Vinted	0	0	0

The screenshot shows the 'Setting' tab of the plugin. It contains a paragraph explaining that messages will be sent to social networks based on the bio link entered. Below this, there are three message templates for Instagram, TikTok, and Depop, each with a corresponding icon and a text box. At the bottom, there is a red-bordered box with the text 'Please Enter Your Bio Link Below To Get Started' and a text input field containing the URL 'https://sixdeep.com/YourName'.

If you click on the Settings tab of the plugin, you will be able to see the DM that is automatically sent to the new users you have followed.

You can use the Follower Tool without registering a Bio Link however, if you want to be paid commission on sales made by your followers then you'll want to complete this step and enter your Bio Link into the field labelled "Please Enter Your Bio Link Below To Get Started".

Step 4 - How to get more followers on Instagram

As we have already discussed, creating your unique Sixdeep Bio Link is entirely optional. It is a great way to promote all of your social media channels and earning commission whenever your followers shop however, it is not a condition to using the follower tool.

Instructions

In order to use the follower tool to get more Instagram followers, you'll first need to log into your Instagram account from within the Google Chrome browser. Once you have done this, navigate to the Instagram profile of the user whose followers you want to follow. For the purposes of our example, we have chosen to follow the users who follow Amazon. You'll then need to launch the follower tool you installed earlier from the browser. You should see a screen that resembles what you see in the image below.

Google Chrome Extension

Using the Sixdeep follower tool in order to gain more followers on Instagram couldn't be easier.

You can see from the image below that the Instagram username is used in the Account to Scan field of the follower tool.

Once you have copied the Instagram username into the Account to Scan field you'll then need to tick the box that says Instagram, click how many accounts you want to follow or unfollow and then press the Follow or Unfollow button.

Remember, if you sign up for your unique Bio Link, the follower tool will automatically DM all new follows with your bio link. This will help you to monetise your following.
